Generative AI

The background is a dark, abstract composition. It features a dense cluster of colorful, translucent geometric shapes (cubes, prisms) in shades of blue, purple, and orange, creating a sense of depth and complexity. A bright, glowing light source, resembling a star or a fireball, is positioned in the upper right quadrant, casting a warm, yellow-orange glow across the scene. The overall effect is one of dynamic energy and technological sophistication.

Generative AI impacts business as it relates to content discovery, creation, authenticity and regulations. It also has the ability to **automate human work**, as well as customer and employee experiences.

The background is a dark, abstract composition. It features a dense cluster of colorful, translucent geometric shapes (cubes, prisms) in shades of blue, purple, and orange, creating a sense of depth and movement. A bright, glowing light source, resembling a star or a fireball, is positioned in the upper right quadrant, casting a warm, orange and yellow glow across the scene. The overall effect is one of dynamic energy and digital complexity.

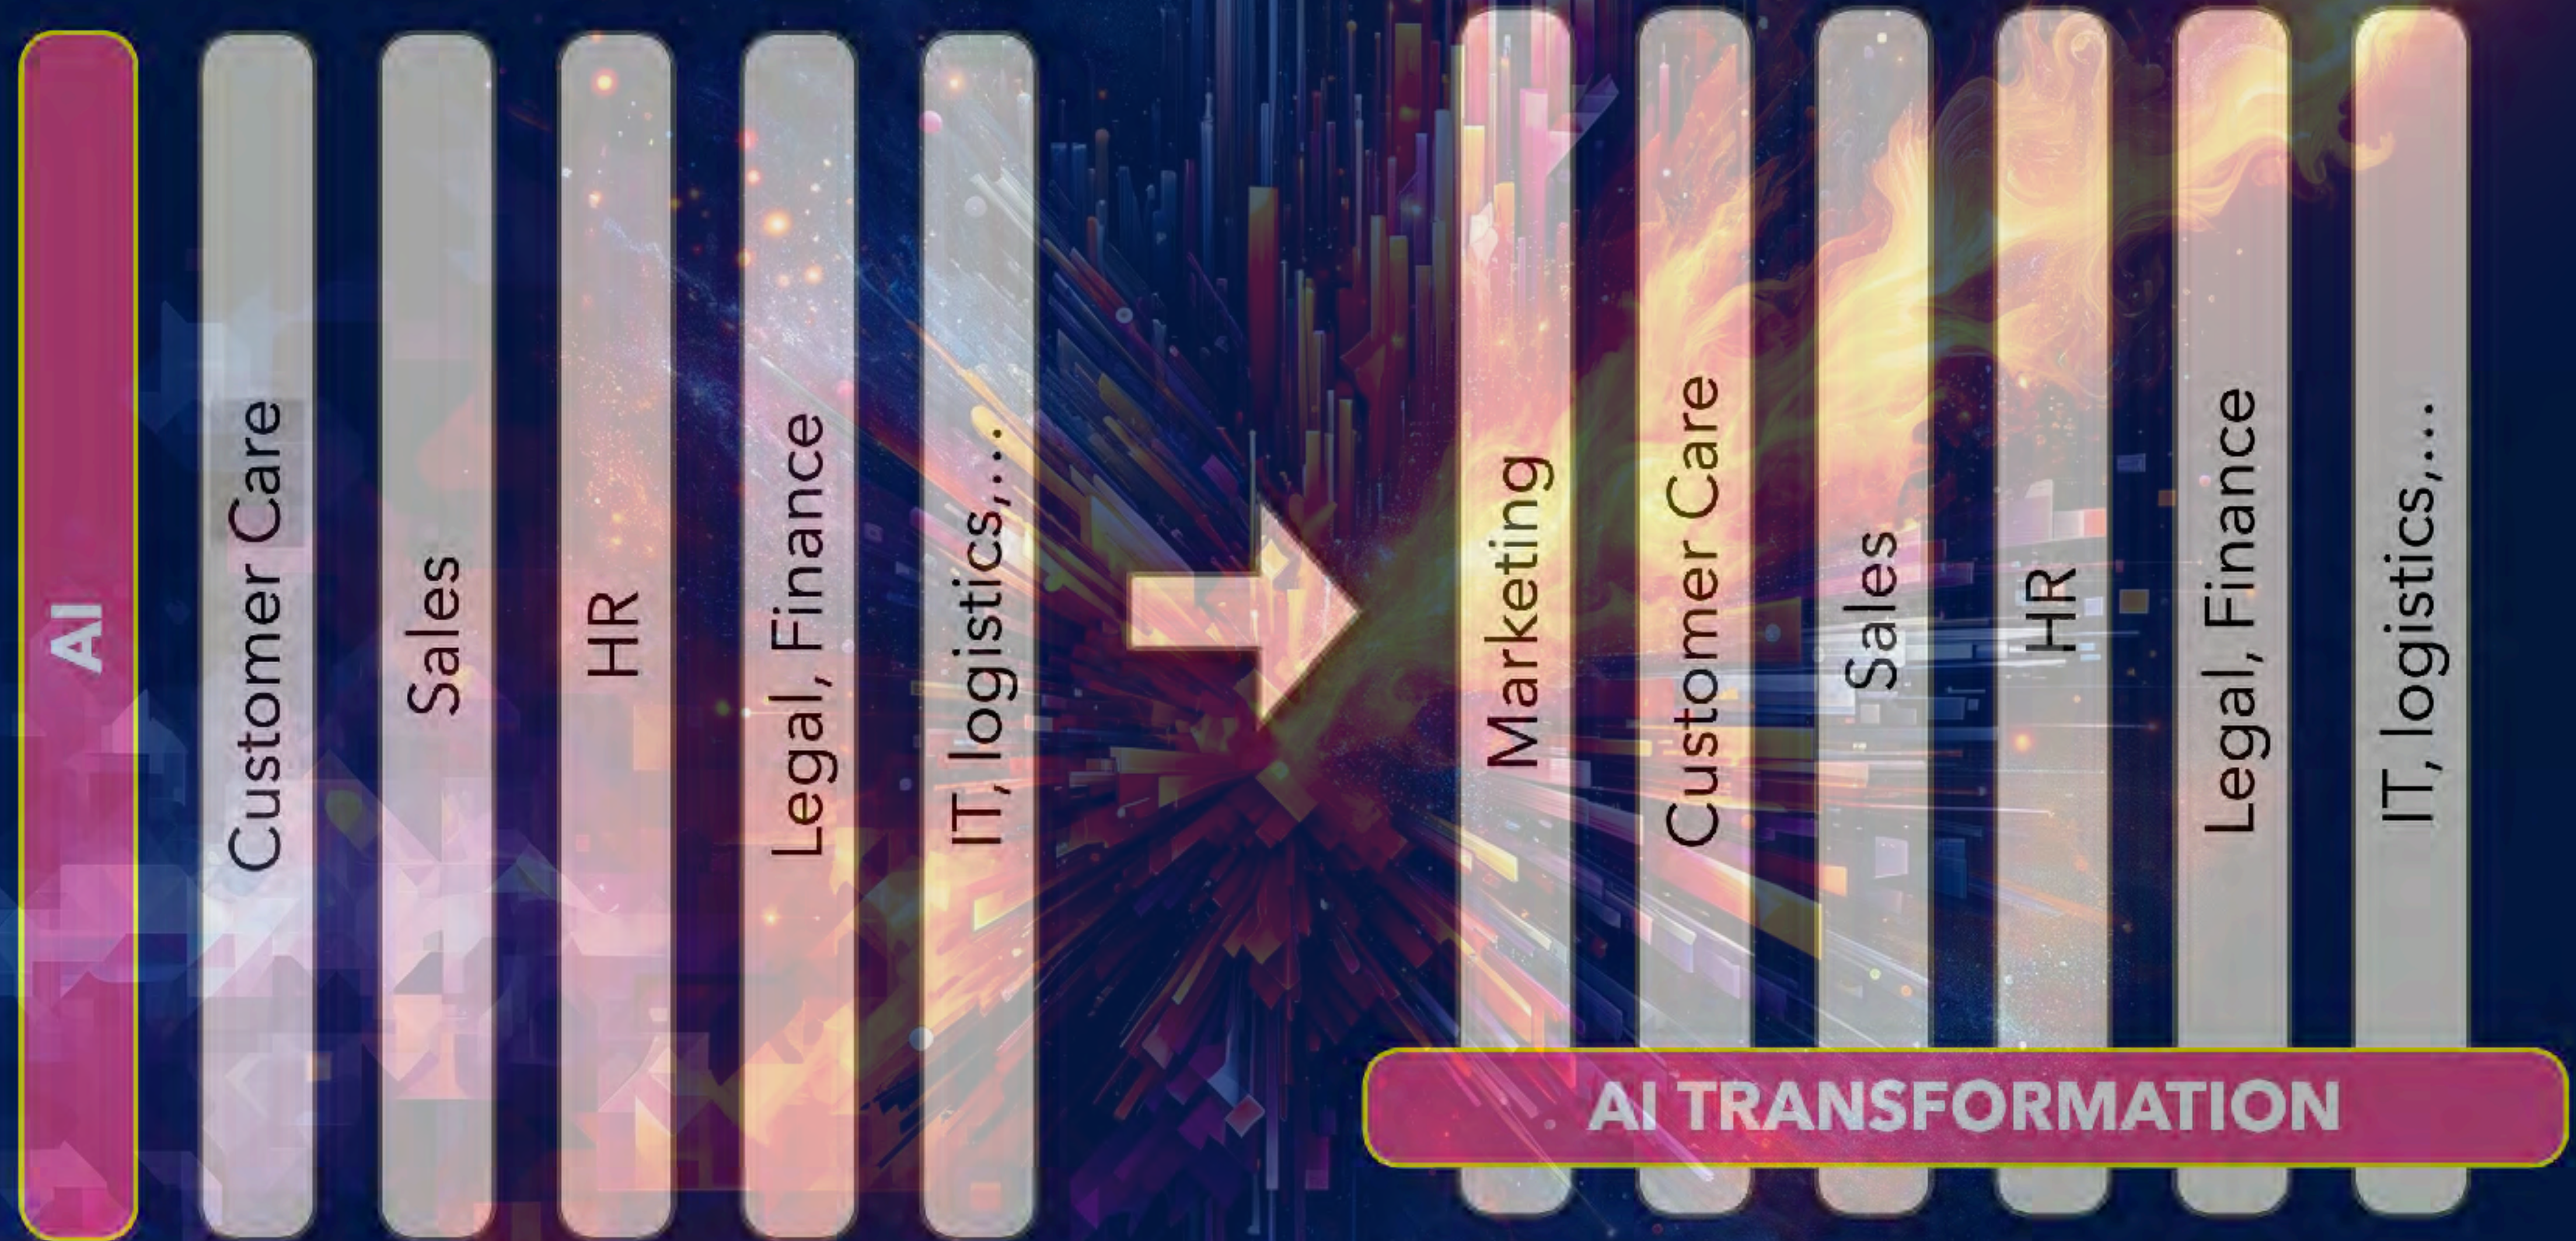

Generative AI impacts business as it relates to content discovery, creation, authenticity and regulations. It also has the ability to automate human work, as well as **customer and employee experiences.**

A woman with long brown hair is holding a black Canon DSLR camera up to her eye, looking through the viewfinder. She is wearing a dark blue t-shirt. The background is a blurred cityscape at dusk or dawn, with warm light from the setting or rising sun. Overlaid on the image are numerous vertical, multi-colored lines of varying heights and colors (yellow, orange, red, blue, green) that resemble digital data or a bar chart. The text "AI has already created as many images as photographers have taken in **150 years.**" is written in white, with "150 years." in a bold, light blue font.

AI has already created as many images
as photographers have taken in **150 years.**

The background is a complex, abstract visualization of audio data. It features several prominent, wavy, ribbon-like structures in shades of blue, purple, and orange, which appear to be vibrating or pulsing. These structures are set against a dark, almost black, background that is filled with numerous small, glowing particles and larger, out-of-focus circular bokeh lights in various colors like blue, orange, and purple. The overall effect is one of dynamic energy and digital sound waves.

Briefing doc

Summary

This text comes from the Flemish Government Agreement of 2024-2029. The text lays out the government's plans for the next five years, covering a wide range of policy areas including the economy, social affairs, climate change, mobility, environment, culture, and justice. It proposes concrete actions to improve the lives of Flemish citizens and create a more sustainable and prosperous future for the region. The government outlines specific initiatives to achieve their goals, including increased investment in education, healthcare, and infrastructure, as well as a commitment to fighting climate change and promoting social justice.

It is my pleasure to welcome Dr. Andrew Ng, tonight.

Stanford Online

Ng: Opportunities in AI - 2023

Stanford Online

YouTube

Search

What to do with the selected text?

Dr. Andrew Ng, the managing General Partner of AI Fund, discusses the opportunities in AI. He explains that AI is a general-purpose technology that can be applied to various applications, similar to electricity. He focuses on two important tools in AI: supervised learning and generative AI. Supervised learning is good at labeling things and recognizing patterns, making it useful in applications like spam detection and self-driving cars. Dr. Ng also mentions the power of large language models like GPT, which use supervised learning to predict the next word in a sentence. These models have various applications, including consumer tools and developer workflows. He highlights that building commercial-grade AI systems using supervised learning can take around six to 12 months, while prompt-based AI workflows can be faster.

Perplexity

Iran heeft recentelijk een aanzienlijke raketaanval op Israël uitgevoerd, waarbij naar schatting bijna 200 raketten zijn afgevuurd. Deze aanval wordt door Iran gepresenteerd als een vergeldingsactie voor de dood van Hezbollah-leider Hassan Nasrallah, die bij een Israëlische luchtaanval in Beiroet is omgekomen. De Iraanse Revolutionaire Garde heeft verklaard dat deze actie noodzakelijk was als reactie op de escalatie van geweld door Israël in de regio, met name tegen bondgenoten van Iran zoals Hezbollah.

Huidige situatie in het Midden-Oosten

- Raketaanval:** De aanval vond plaats in de avond, waarbij explosies werden gehoord in steden zoals Jeruzalem en Tel Aviv. Het Israëlische luchtafweersysteem, de Iron Dome, heeft een aantal van de inkomende raketten weten te onderscheppen, maar niet allemaal.
- Reactie van Israël:** Israël heeft gereageerd door zijn burgers te waarschuwen en hen aan te sporen schuilkelders te zoeken. Het leger heeft aangekondigd dat er plannen zijn voor een tegenreactie op een door hen gekozen moment.
- Internationale implicaties:** De Verenigde Staten en Jordanië hebben ook steun betuigd aan Israël in hun verdediging tegen deze aanval. Er zijn zorgen dat deze

PDF

dit is de balans jaarrekening van een bedrijf, wat is de EBITA van dit bedrijf?

The EBITA (Earnings Before Interest, Taxes, and Amortization) can be calculated by taking the company's operational or business result and adding back amortization and interest expenses. Based on the financial information available in the document:

1. **Operational Profit (Bedrijfswinst):** €10,570,513 (23769434)
2. **Amortization (Afschrijvingen en waardeverminderingen):** €9,928,084 (23769434)

Now, for the EBITA calculation:

$$\text{EBITA} = \text{Operational Profit} + \text{Amortization}$$
$$\text{EBITA} = €10,570,513 + €9,928,084 = €20,498,597$$

Thus, the EBITA of the company is €20,498,597 for the period under review.

wat is de totale omzet van dit jaar ?

De totale omzet van het bedrijf voor dit jaar bedraagt €343.086.449 (23769434).

Visualization

Let's create a bar chart to visualize these counts.

Bar Chart of Key Values Mentioned by Employees

I'll generate a bar chart to depict the frequency of each theme. [1]

Key Values Mentioned By Employees

Here is the bar chart depicting the key values mentioned by employees regarding their feelings about the organization and work environment at ABN Klimatisatie. The chart clearly shows that "Colleagues" and "Atmosphere" are the most frequently mentioned themes, followed by "Flexibility," "Support," and "Environment."

Would you like to proceed with visualizing another section or is there anything specific you want to analyze further? [2]

Hoe do you use this tire Prodi t for 2a

It looks like you uploaded a picture of a tire inflator or air compressor kit. Step 2A in the instructions refers to filling the tire with air using the compressor. Here is a basic guide based on the diagram:

1. **Step 1A:** Ensure the device is properly connected to a power source, likely through a car's 12V socket (cigarette lighter).
2. **Step 2A:** Attach the air hose from the compressor to the tire's valve stem. This is where the air will flow into the tire.
3. **Step 2B/2C:** Connect the device to the tire and power it on to start inflating. You should see the pressure gauge move, allowing you to monitor the tire pressure.
4. **Step 3:** Monitor the pressure and fill the tire until the desired PSI or bar level is reached. This is usually indicated by the green section ↴ the pressure gauge (around 2.0 - 2.5 bar or 30-36 psi for many tires).
